April 4, 2017

Internal Revenue Service
Cincinnati, OH 45999-0023

To whom it may concern:

In order to establish a bank account for our homeowner's association, I recently requested and received the above EIN. The document informed me that a form 1120H needed to be filed that very day, which I did. In my haste, I checked the 'Final return' box incorrectly.

After speaking with a representative at the IRS (Mrs. Robinson, badge # 1002960418), I now think that I should have listed the date the association was formed as 3/25/2017.

I do not have access to any previous records of the association. We understood that such an association existed, but had not heard anything about it for several years. We called a meeting in order to elect new directors who could create a budget and issue assessments, and so prevent anyone else from trying to collect money in the association's name. While several members have paid requested dues in the past, without records we can only consider them eleemosynary, and start from scratch.

Please let me know if the entered association formation date can be changed, and if I need to file the 16 years of returns for which I have no information.

Sincerely,

Tim Pryor
